

BONALDO

Innesti

Designer: Paolo Grasselli

The base of the Innesti round table, designed by Paolo Grasselli for Bonaldo, appears detached from the upper part of the accessory, as though the top were suspended in the air. The two parts are united by a perfect, yet unexpected joint that puts this table in the spotlight with a

great sculptural effect. This element becomes the standout feature of the living area, while dialoguing with the surrounding space thanks to the option to customize the details with different types of marble, wood and ceramic for the top and different metals for the base.
