## Kadou coffee

The Kadou unique coffee table is an elegant coffee table which recalls the shapes of a traditional Japanese flower composition: in fact, its name means “the art of flowers”. The top and base are in painted metal, available in seven elegant colours. The branches, which make up the legs, are placed asymmetrically with respect to the base and top, also available in painted steel. They are available in a range of tones, making it possible to give an overall note of colour or to opt for a single chromatic effect. The Kadou coffee is available in three versions (high, medium, low), in which the

diameter of the tops and the height of the coffee table varies. This is thus a collection of informal coffee tables, ideal both in the domestic environment and for the most varied contract uses: spaces that are open to the public, showrooms, shops, waiting rooms and even offices. Simple in its materials, but pleasantly sophisticated in its design and shape, Kadou is a unique design coffee table product with a striking aesthetic connotation, able to furnish with style, and to tell a strongly evocative story.
